CALCULATORS IN EXAMINATIONS

We want you to be confident that your Casio calculator is allowed in examinations.

All calculator models sold by Casio UK are permitted in UK school exams. Some models are permitted in Irish and IB exams.

Certain models have dedicated Exam Modes that comply with exam regulations for use in public examinations.
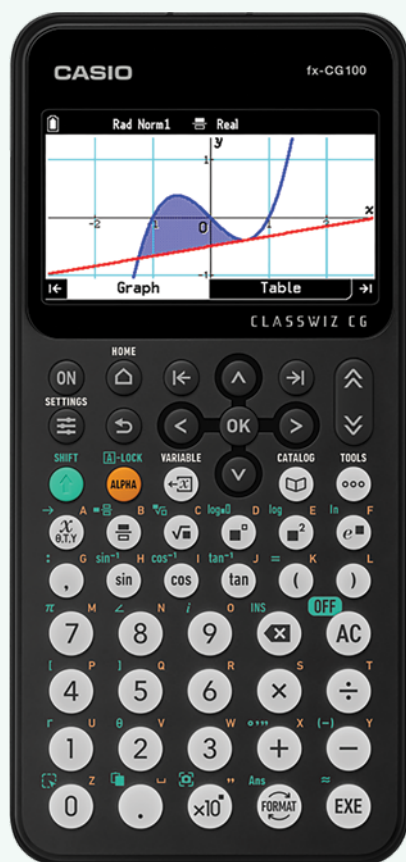

For non-school examinations, please refer to your exam board's regulations.

UK Exams are overseen by **JCQ**, you can read their calculator guidance **here**. All Casio UK models meet JCQ guidelines.

For IB exams, you can find calculator guidance **here**.

EXAM ELIGIBILITY

This model is **permitted** in all **UK** examinations.

This model is **permitted** in **IB Diploma** examinations in Examination Mode.

This model is **not permitted** in **Irish** examinations.

Country	Board	EXAM									
		GCSE	GCSE FM	Core	A-level	Nationals	Highers	Junior	Leaving	Diploma	C&G
England, N.I., Wales	AQA	✓	✓	✓	✓						
	CEA	✓			✓						
	Eduqas	✓			✓						
	OCR	✓	✓	✓	✓						
	Pearson Edexcel	✓	✓	✓	✓						
	WJEC	✓	✓		✓						
Scotland	SQA					✓	✓				
Ireland	SEC										
Non-territorial	IB									✓	
	C&G										✓

Please note that **permitted** means the calculator is **allowed** in the exam. It **does not** mean that it is **suitable** for the exam. There may be functions that you need that are not on the calculator. Please refer to your syllabus and our *comparison chart* for functions.

EXAMINATION MODE

This calculator has two Examination Modes, one for UK exams and one for IB Diploma exams. You may need to update your calculator's operating system. Please see our **website**.

UK/C&G

Students are required to erase all stored data.

Alternatively we recommend using the UK Examination Mode. In the UK Examination Mode you cannot access

- any stored data, user programs, documents, activities and unauthorised functionality
- the modes E-CON, Python, Probability Simulation, Memory, Database

Please see **instructions on using the UK Examination Mode** on our **website**.

IB

IB Examination Mode is required for use in examinations. Please refer to IB documentation.

In IB Examination Mode you cannot access
- vector calculations and 3D graphs
- any stored data, user programs, documents, activities and unauthorised functionality
- the modes E-CON, Python, Geometry, Probability Simulation, Memory, Database

Please see **instructions on using the IB Examination Mode** on our website.

FUNCTIONALITY

This calculator does not have
- symbolic algebra manipulation
- symbolic differentiation or integration
- language translators

Note: User data (main memory) is backed up. The backed up data will be restored when you exit an Examination Mode. Any data created during an Examination Mode session will be deleted when Examination Mode is exited.
